

# MARIEL TALISAYSAY

**Address:** Barangay Muzon Proper, San Jose del Monte Bulacan
**Phone:** 0976-286-0159
**Email:** talisaysaymariel3@gmail.com
**GitHub:** https://github.com/macaraonii
**LinkedIn:** www.linkedin.com/in/mariel-talisaysay-40b15328a

## SUMMARY

Motivated Information Technology student with knowledge in software development, UI/UX design, cloud computing, and database management. Skilled in JavaScript, React, and Tailwind CSS, with experience in web development, IoT, and AI-assisted systems. Eager to apply technical skills, contribute to innovative solutions, and gain hands-on industry experience.

## TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python (Basic), Java (Basic)
- **Front-End Development:** HTML, CSS, React, Tailwind CSS, Responsive Web Design
- **UI/UX Design:** Figma, Canva, Wireframing, Prototyping
- **Cloud Computing:** Microsoft Azure (Virtual Machine Deployment, Configuration, and Remote Access)
- **IoT & Embedded Systems:** ESP32, Arduino Uno, Arduino IDE
- **Database Management:** MySQL, Firebase Firestore
- **Development Tools:** Git, GitHub

## PROJECTS

**IoT Research & Development Contributor | AquaGuard** **March 2026 - October 2026**
**IoT-Enabled Armband and AI-Powered Camera for Drowning Detection**

- Led research and selection of hardware components, including sensors, microcontrollers, batteries, and other electronic modules based on system requirements.
- Reviewed approximately 12 research studies to identify and recommend sensor thresholds for detecting potential drowning incidents.
- Participated in end-to-end system testing, troubleshooting, and evaluation, providing recommendations to improve functionality and reliability.
- Contributed to system design and development discussions, supporting hardware integration and overall system improvements.

**Web Developer | ShoeCart by ShoePao** **November 2025 - February 2026**
**Online Ordering System with Augmented Reality**

- Developed the front-end using HTML, CSS, and JavaScript, including the homepage, product browsing, and brand filtering.
- Built shopping cart and checkout interfaces and integrated Firebase for order data storage and management.
- Implemented shoe AR try-on functionality using Snap AR, supporting mobile camera access and QR code access from desktop.
- Created wireframes, prototypes, and system diagrams to define user flows and guide implementation.

## EDUCATION

**Bachelor of Science in Information Technology** **August 2023 - Present**
NU Fairview

- Specialization: Mobile and Internet Technologies

## ACHIEVEMENTS

**Best in IoT Innovation — TECHNOVATE 2026**

- National University – Fairview | 2026

**Consistent Dean's Lister — 1st Year to 4th Year**

- National University – Fairview
